

BIKE BUYER'S GUIDE

6 MONTH FREE WARRANTY

Your Revolve ReCYCLING redeployed bike is warranted for six months from the day of purchase. That means if something mechanically goes wrong with the bike – which doesn't include letting it get run over by a bulldozer – you can bring it back and we will fix it.

Note – It does not cover suspensions.

3 MONTH FREE SERVICE

Your Revolve ReCYCLING redeployed bike is eligible for a free service within three months of the day of purchase. If you bring the bike to our WheelShop in Alexandria, we will make sure everything is in good running order for you (tyres, cables, brakes, gears, wheels, spokes, chain, etc...).

PIMP YOUR RIDE

As part of its purchase price, your Revolve ReCYCLING bike comes with a mandatory bell and mandatory front and back reflectors. You can also pay for and have us add a basket, rack, bottle cage, or kickstand to your bike – subject to stock and time.

If you need accessories for your bike (helmet; front and back lights; locks; bottle; streamers; flags; fancy reflectors; horn; mirrors; cycling clothes, etc), they are available from our mates at the closest bike shop which is:

Omafietz at 278–282 Mitchell Road in Alexandria

RIDE YOUR RIDE

Sydney is getting better all the time in terms of safe and convenient riding, including dedicated cycleways for both commuting and recreation. One of the better resources for getting around is the RideWithGPS app which tells you the best way to get from A to B on a bike in Sydney; it works the same way as the GPS for your car – but better for bikes. Or, try the City of Sydney Council's bike maps on their website:

<https://www.cityofsydney.nsw.gov.au/lists-maps-inventories/sydney-cycling-map>.

The Council also offers courses for safe and skilled riding.

BE KIND TO YOUR RIDE

Good maintenance means your bike stays safe and stays on the road for longer. The basics are checking your chain, tyres, reflectors, and brakes before hopping on.

To learn more, the City of Sydney Council offers a variety of bike maintenance workshops and courses: <https://www.cityofsydney.nsw.gov.au/talks-courses-workshops/cycling-courses>

Or, if you would like us to do a workshop, just let us know it's a bloody good idea!

And if you need to service your bike, just make a booking through our page –

<https://revolverecycling.net/our-services/>

In addition, you can register your bike in case of theft at the website below:

<https://www.nationalbikeregister.com.au/>

BE OUR MATES!

Spreading the word about what Revolve ReCYCLING does – saving old bikes from landfill, selling affordable branded bikes, and our bike equity programs – is golden for us and we really appreciate it. We love:

- Getting your pics of your ride in action.
- Being followed and shared on our socials.
- People knowing to donate their old rides.
